CPA Sharon Kreider Will Offer a Healthcare Update on Medicare Law Changes

What a great meeting last month. 100 PLUS to hear Judge Cain. This month we turn our attention to changes to Medicare. And to help us will be Sharon Kreider, CPA, EA.

The federal health care overhaul has introduced a new catchphrase, "accountable care," which is really a system of financial incentives for doctors, clinics and hospitals to coordinate care and reduce costs. To make accountable care work, hospital systems are likely to become bigger than ever, with academic medical centers gobbling up smaller community hospitals. Patient satisfaction will be their new mantra, even as they argue that patients cannot always tell the difference between great care and great atmosphere.

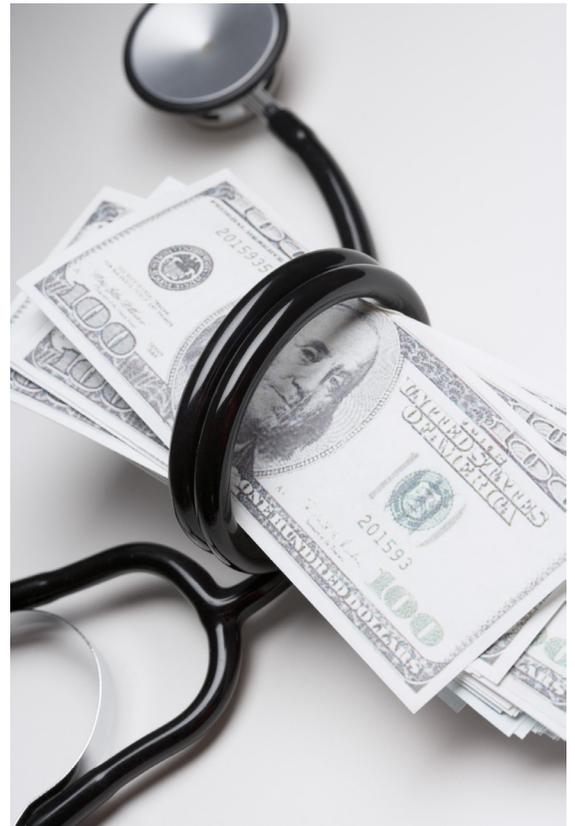

But the 2012 Medicare debate is really all about the Baby Boomers. Baby Boomers take note: Medicare as your parents have known it is headed for big changes no matter who wins the White House in 2012. You may not like it, but you might have to accept it. ... Limit the overall growth of Medicare spending? It's in both approaches. Squeeze more money from upper-income retirees and some in the middle-class? Ditto. Raise the eligibility age? That too, if the deal is right.

No doubt big changes are about to happen and nobody will be excluded. Ms. Kreider will help us to untangle the issues and make these changes easier to swallow. Don't miss it.
